

2019-2020
QUEEN'S UNIVERSITY RESIDENCES HEALTH
ACCOMMODATION FORM

Queen's Residences is committed to accommodating students with disabilities in accordance with the *Ontario Human Rights Code*.

The accommodation process under the *Code* is intended to remove identified barriers, so students with disabilities have the same access as other students to participate in residence life with dignity and independence. The accommodation process is not intended to address transition-related stress, generally faced by many students moving into more independent living situations.

This form will be used for Residence placement only. If you also require academic accommodations, you must contact Queen's Student Accessibility Services (QSAS) for assistance.

This form does not replace the Residence application. Students must still apply and make residence deposits by the required deadline for their accommodation request to be considered.

When forms are received, the Residence Admissions office will contact you confirming that your accommodation has been approved or that we require further information to complete our assessment.

The information on this form will be used for the room assignment process and is kept strictly confidential, unless consultation or notification is required with Queen's Student Accessibility Services and/or Security & Emergency Services.

Completing this Form:

1. Student - Complete Section A before providing the form to your health care provider.
2. Health Care Provider is required to complete Sections B and Section C and submit the form directly from their office, or the student may use the alternate submission method noted in the instructions at the end of the form.

DEADLINE: This form must be returned to the Residence Admissions Office by the same deadline as your application and deposit (**June 10th, 2019**) to be considered during the room assignment process. While we will consider late submissions, we may be limited in what accommodations we can provide after the deadline.

SECTION A: To be completed by Student

Consent to release of information

I _____ (your name) authorize:

- My regulated health care provider to complete Sections B and C of this form and submit to the Queen's Residence Admissions office for the purpose of my residence room placement.
- The Residence Admissions office to contact my health care provider if further clarification is required to assess my accommodation needs.
- My health care provider to disclose my diagnosis or specific health condition on this form (please note that disclosure of a diagnosis is optional and **is not necessary** to receive accommodations in residence). Some students choose to provide a diagnosis as they believe it would be helpful in the case of an emergency or because they would like the residence team to know more about their health condition.

**SECTION B: CONFIRMATION OF DISABILITY and FUNCTIONAL LIMITATIONS
(To be completed by a Regulated Health Care Provider)**

Dear Health Care Provider

We will be relying on your detailed knowledge of the student's disability or health condition and resulting functional limitations to determine accommodations for this student in the residence setting. Please note student preferences that are not related to the disability or health condition are outside the scope of this form.

I confirm that this student has a disability and/or diagnosed health condition resulting in functional limitations that will affect their living situation in a residence environment.

This confirmation of disability is based on: (Choose one)

I am the health care provider who diagnosed and is currently treating/managing this disability or health condition

I have reviewed documentation from a health care provider qualified to determine the disability or health condition.

I have no history with this student and am relying on the student's self-report

Date of diagnosis or determination of disability or health condition:

Date of most recent assessment of functional impairments: _____

Student Name _____

Disclosure of Diagnosis

Disclosure of a specific health diagnosis is **not required** to receive accommodation in Residence; however, should the student choose to disclose this information, please note that all medical information is kept strictly confidential and is used only for Residence placement. In some cases, we may share the information with the Queen's Student Accessibility Services office for professional advising on an individual case or with Queen's Security and Emergency Services in cases where a student may need help in the event of an evacuation. The forms are handled and destroyed in accordance with Queen's University student confidentiality standards and FIPPA.

I have the student's consent to provide the diagnosis. The diagnosis is:

Required Accommodation and Functional Limitation Impact

Below are the ways in which we are able to accommodate in Residence. Please check all that medically apply to the student's disability or health condition.

Please note: when checking a required accommodation, it is mandatory to complete the functional limitation impact box (if provided) for this form to be accepted.

PLEASE PRINT LEGIBLY

Carpet Free Room

Please note that although we have carpet free rooms, there still may be carpet in common areas of the building. Queen's staff clean the common areas but students are responsible for the cleanliness of their rooms and are provided vacuums with Hepa filters to do so. Knowing that some dust is unavoidable, please fill out if you feel the current measures in place still warrant a carpet free room.

Please describe the allergens and the impact to the student's health.

What strategies is the student currently using to address this issue?

Student Name _____

Learning Disability or specific Learning Disorder (if this box is checked, please fill out the section below).

Please explain how the functional limitations of the Learning Disability/Disorder require accommodation *in a single room*.

Other type of health condition (complete box below) _____

Please indicate the impact that sharing a room would have on their living context:

Washroom accommodation

We have multiple buildings with a variety of washroom configurations. Most have shared washrooms amongst all of the students on a floor, where multiple students may be using the washroom at a given time. These shared washrooms contain multiple single stall toilets and showers. We have a limited number of the following other washroom configurations:

- Private washrooms (washrooms within the bedroom space for exclusive use)
- Semi-private washrooms (the washroom is located between 2 single rooms and is shared between only those 2 students)
- Single-use washrooms (shared amongst all students on the floor, with only one student using them at a time).

The student is unable to use a shared washroom (If checked, also check **all** options that would medically support the student's needs)

Student Name _____

The student needs a private semi-private single-use washroom

If checked, what is the impact of the student having to use a shared washroom environment?

Mobility Accommodation

Note: This section not applicable if in the prior section of the form a Mobility related Disability or Injury has already been identified).

Our campus is roughly 3 kilometres across. It is estimated that this distance could be walked in 20-25 minutes; there is a public bus service from our residence on the west campus to the main campus area. If the bus is taken, from disembarking at the primary main campus stop, most buildings are then accessible within a 10-15 minute walk. If the walking distances identified would provide a barrier to the student's mobility in relation to their disability or medical condition, please check the applicable box.

- The student is able to walk one kilometre or more without undue impact
- The student is able to walk less than one kilometre (if this box is checked, an individual consultation may be needed with the student's class schedule/locations)

If the student is limited to walking one kilometre or less, please provide further details:

If the student is only able to walk one kilometre or less, would they be able to use a bus without it affecting their health condition? Yes No

Student Name _____

If you checked no, please explain why the student is unable to use a bus to commute:

Service Animals

Queen's supports the Accessibility for Ontarians with Disabilities Act (AODA) in regard to Service Animals. If the student requires a Service Animal, they must obtain separate documentation from the Queen's Student Accessibility Services for approval.

If the student has a diagnosed health condition (e.g., – phobia or allergy) that would be impacted by living in proximity to a Service Animal in the residence environment, please choose one of the following:

- This student cannot live on the same floor as a Service Animal
- This student cannot live in the same building as a Service Animal

If you checked either box above, please identify the species of animal(s) with which the student must avoid contact:
